National Facility Solutions Provider Launches New Website

Minneapolis, MN – SitelogIQ, a national provider of facility solutions announced today that it has launched a new, robust Website to better demonstrate the successful delivery of energy efficiency and operational savings solutions to clients in the commercial, industrial, K-12, higher education, government, housing and hospitality markets.

SitelogIQ was formed following the merger of eight long standing firms with decades of experience and proven success. Each of these companies works collaboratively to bring their history, resources, and expertise to every project. The organization has more than 30 offices strategically located throughout the United States and employs more than 600 employees. As an organization, they've collectively worked on more than 11,000 customer sites with a project value of more than \$5 billion and have helped their clients achieve energy and operational savings equivalent to more than \$1 billion.

The company has plans to continue evolving its Web footprint throughout the next few months. Site visitors to SitelogIQ.com can expect to learn even more about the company's core values, commitment to its employees, and project engagements.

"We are thrilled to introduce our new Website into the marketplace," said Mike Taylor, Vice President of Marketing & Sales Operations for SitelogIQ. "The way that the eight companies have come together has been a tremendous and exciting collaboration of the best in the industry and we're eager to get our story out into the market."

About SitelogIQ

SitelogIQ was established to meet the need for a nationwide facility services company offering the full range of design, engineering, construction, management, energy and lighting solutions. We are dedicated to delivering comprehensive solutions that support the resiliency, future-proofing, energy saving, operating efficiency, and sustainability goals of our clients. While doing so, we also create healthy, comfortable indoor environments that promote productivity, increased output, and improved experiences.
