

## BUILDING BETTER HIGHER EDUCATION FACILITIES

*Universities and higher education institutions across the U.S. are facing a \$112 billion backlog of deferred maintenance needs, leaving facility leaders with the challenge of tackling aging infrastructure with limited budgets and resources.*

**SitelogIQ partners with higher education leaders to improve their campus facilities through a broad variety of solutions, addressing deferred maintenance needs while building resilient and sustainable spaces for their students and staff.**

Whether you're building new, renovating an existing structure or focused on improving sustainability and efficiency, we provide a complete range of higher education facility solutions tailored to your university's goals and specific project requirements.

### OUR HIGHER EDUCATION BUILDING SOLUTIONS AND SERVICES INCLUDE:

01

#### **CAPITAL PLANNING**

Our work includes conducting facility condition assessments and energy audits, forecasting costs for renovations and improvements, developing energy resiliency options, assisting in planning and processes, and providing ongoing facility maintenance consulting and support.

02

#### **DESIGN-BUILD & CONSTRUCTION MANAGEMENT**

We offer a variety design-build and construction management services, allowing us to ensure your project remains within budget and on schedule to achieve your facility goals.

03

#### **ENERGY EFFICIENCY**

We provide solutions ranging from mechanical, electrical and plumbing design and replacement, LED lighting retrofits, solar photovoltaic (PV) panels, smart thermostats, water conservation, EV charging infrastructure, and more.

# Facility Maintenance Software Designed for Your Campus

# mysiteiq®

**mySiteIQ** is SitelogIQ's higher education capital planning and facilities management software, developed with scalability and customer personalization in mind. Utilizing technology and our team of experts, mySiteIQ helps college and university leaders better organize their facility assets, prioritize long-term capital plans, and optimize building efficiency and performance.

The mySiteIQ technology platform is designed to help you gain greater insight into your facilities, creating trust, transparency, and teamwork to improve your facilities and drive more successful outcomes.

## Your Trusted Partner

SitelogIQ understands the state of higher education facilities and their specialized needs. **We offer everything needed to create sustainable and future-ready classrooms for the next workforce generation.**

We have partnered with colleges and universities across the nation to develop unique strategies and plans that minimize costs and maximize quality and value. Our highly-certified professionals put safety first while quickly completing projects with minimal disruption to campus activities.

**200+**   
projects completed for
